

Binomial Congestion Control

- Implement this algorithm into ns-2
 - Find the c++ source file in ~/ns/ns-2.1b7/tcp.cc
 - Increase: `void TcpAgent::opencwnd()`
 - Decrease: `void TcpAgent::slowdown()`
 - Compile a new version of ns
- Performance metrics:
 - cwnd vs. time, or
 - throughput vs. time.

Assignment #6

- Using the following multiple bottleneck topology
- Generate your own ns script based on previous code
 - cwnd vs. time for the green flow

Submission

- Submissions:
 - Ns2 simulation script;
 - All graphs;
 - Analysis (most important part).
- Due Next Wen Oct 9 11:55pm
