

RPI ISL Parking Lot Database License Agreement

Introduction

The goal of RPI ISL Parking Lot Database (henceforth, RIPL) is to provide training data for activity recognition. Rensselaer Polytechnic Institute (henceforth, RPI) owns copyright of the collection of the images.

Release of the Database

The RPI ISL Parking Lot Database is only available to researchers on a case-by-case basis. All requests for portions of the RIPL database must be submitted in writing to the RPI Principal Investigator by the researcher. To receive a copy of the imagery, Researcher must sign this document and agree to observe the restrictions listed below.

Consent

Researcher agrees to the following restrictions on the RPI ISL Parking Lot Database:

1. Redistribution: Without prior approval from the RPI Principal Investigator, the RPI ISL Parking Lot Database, in whole or in part, will not be further distributed, published, copied, or disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying or disseminating to a different facility or organizational unit within the Researcher's university, organization, or company.
2. Modification and Commercial Use: Without prior approval from RPI, the RIPL Database, in whole or in part, may not be modified or used for commercial purposes. Researcher shall not duplicate or use the disclosed RIPL database, its contents, or any seal, logo, mark, or phrase associated with or owned by RPI to manufacture, promote, or sell products or technologies (or portions thereof) either directly or indirectly for commercialization or any other direct for-profit purpose without the prior written permission of RPI.
3. Publication Requirements: No images in RIPL database can be published in any form on any publications.
4. Usage: the RIPL database is limited exclusively to algorithm training. Its use for other purposes is strictly forbidden.
5. Citation: All documents and papers that report on research that uses the RIPL database must acknowledge the use of the database by including the following citation

Zhi Zeng, Qiang Ji, Knowledge Based Activity Recognition with Dynamic Bayesian Network, ECCV 2010, Part VI, LNCS 6316, pp. 532-546, 2010.

6. Indemnification: Researcher agrees to indemnify, defend, and hold harmless Rensselaer Polytechnic Institute and its Board of Trustees, officers, employees and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any such injury or damage (real or alleged) and shall pay all damages, claims, judgments or expenses resulting from researcher's use of the RIPL database.

NAME (in capitals) SIGNATURE and DATE

ORGANIZATION AND ADDRESS (in capitals)
